## Something To Think About

ROY MARTIN

DIRECTOR

### DOCUMENTATION FOR ESTATE

If part of your estate eventually will be probated, a simple but enormously useful step to save money is to organize your records and documents as completely as possible now, while you're alive.

Interestingly enough, this is more important if your estate is small rather than large. Searching out documents by the executor is charged against the estate, and represents a greater percentage of a

small estate than a large one. In either case, organizing your documentation can mean a direct dollar savings.

Whether we like it or not, our financial and legal affairs depend on paper. For your survivors' sake, draw up an inventory of all the information they will need. Gather the papers together, if you have them, or make careful notations as to where the papers are to be found and what they contain.
