Should racing have more weight towards winning a chiampioenship?
"I don't know that there is anything wrong with what we have, and dowe do you change to keep people from focusing no winning? I'm preparing to go there and win. As the weekend goes on, I still prepare to win. On Sunday when we race, if we're a 15th place car, then I change my mindeet and ry to get us to to 10. Then, when we're to go 10 car, if try and think of what I can do get us to the top five. When we're in a top five position like we were at Richmond, then I work on trying to

Lee Bullock, 55, is expected to 260 to 320 months.
Rockcastle County Jeff Burdette, who wrote most of the warrants that ded to the arress of the nine people, said that more arrests in the county were imminent.
In each case, the defendants were charged with manufacturing or possessing methamphetamine.

get us in a position to win the race. I can honestly say that I go to every racetrack- and I know my team does with a mindset of, We can win this. When the time comes and you have those hurdles or those burmps in the road that you have to adjust to, you just try to adjust the best that you can. Then, as the day goes on, you try to

Then, as the day goes on, you try to put yourself in a position to do the best you can with that day, But, I surely don't look and say that were going to fry to win harder beause we're eighth, more than if we were leading right now. If s to early I think the last five or six nees of the year you kind of evaluate where you're at. You may start looking at some points then because, obviously, it's a lot of prestige to finish first, second, third - top five in points. It's worth a lot of money to the team and the guys. That's my approach.

#### How Do You Keep Yourself Focused?

Yourself Focused?

"Ill sit down and script out a little bit of a game plan to give you an idea of how things went in the past, what you've done and what you can do. But, a lot of it depends on how you start. When you start and you're running up front and you're on a high; a lot easier to keep yourself focused and going. If you're struggling for having problems and you're fighting some handling conditions, then it kind of turns around and you've got to work twice as hard to keep your self motivated. It's hard because you're the sheet-leader and everybody leading. In the back, of your mind you've got to keep telling yourself that it's going to be alright. Believe it of not, a lot of people will key off, of how'm yr esponses, thoughts and actions are."

### Actually this Primary election was pretty quiet

unt Vernon Signal

Another county election has come and gene and of course there were a let more losers than winners. It did seem this this county election was conducted with some digit and there did not seem to be a lot of hard feelings after the votes were counted last night. People have a right to vote for whom they so desire and they did just that on Tuesday. Rockeastle could have experienced some of the horrible things that have happened in other counties shart have happened in other counties shart have happened in other tomuses have hap backs, Clay and Floyd Counties. For the most part each candidate ran a good clean campaign and everyone should remain firends, now that the Primary is over. I was a little surprised at the small turn-out. Only fourty-one percent of the country is eligible voters went to the polls. That means the majority of the people don't are who is in office or don't seem to think that it matters who is administrating the different

areas of county government.

To those of you who did not bother to vote, 4 on't complain when things don't satisfy you.

On a different note. At times you have to wonder about the some of the policies in place as some of the schools throughout the county.

I am refering to the ridiculous policy concerning the junior and senior prom at RCHS.

I know to most, something such as a formal dance/parry at the end of the school year is of less importance than watching water boil, but to a lot of kids it is very important and something they will always remember, there in a good way or a bad way.

The high school has a policy that only juniors and seniors from RCHS can the belief of the place of the school year the school year to year the year of years and years they would seem fair, but it doesn't.

Students wishing to take dates

Students wishing to take dates from other schools, whether they are a freshman, sophomore, eighth grader or even a teacher can do so.

They are also allowed to take dates who are not in school - but Rockeastle freshmen and sophomores can't on.

It really makes no sense, because the Prom was designed for juniors and seniors and their dates as a year ending celebration.

"Election" (Cont. from Front)

Winners in the constable races were: first district, Randail Stevens, second district, Delno McClure, hird district Stabley Payne, fourth district, Roger Pigg, who unseated Leonard Dale Miller and in the fifth district David Mason.

U.S. Representative Harold Rogers of Somerset was a huge winner in his bid fore re-lection and Lois Combs Weinberg defeated Tom Barlow and will face U.S. Senator Mitch McConnell in the fall.

Also in the fall, there will be races for Mayor in the three cities, council members and school board members, as well as a race for State Representative.

It seems like it would be hard to really enjoy yourself if you are not getting to go to the event with whom you really want to.

I'm not sure how far back the decision goes and I'm not sure who made the policy and I am really not sure why wiser SBDM council members haven't changed it.

It simply makes no sense to discriminate against your own student body.

as well as a race for State Represen-tative.

There also will be races in dis-tricts one and three for magistrate.

4,730 people voted Tuesday, a fourty-one percent turn-out.
