## In Memory of My Family

By Loretta Owens Mink

My family was so wonderful! My first son, James Russell Mink. My first husband, Lewis Mink. My other husband, Ben Belcher. My Daddy and Mother, Sister and Brothers.

There is just two of my family left, myself, Loretta and my sister, Eva. My heart is so broken sometimes. On that great day Jesus will call them home to a better place than this.

I would like to hear my Daddy, Sisters and brothers and my sweet husband, Lewis Mink sing those beautiful songs I'd wrote this on my daddy's birthday.

I know to sing along with them. The Lord knows best.

In Memory of My Father, who passed away many years ago

Written by daughter, Lora Westfield Hamilton.

I am so happy that my name is written in that wonderful book of life.

No one can remove it. I will get to see my father, David Nathan Westfield. I know when that great trumpet sounds,

We will all go to meet Him. My Mother was so lonely and sad. But those wonderful words He spoke were so wonderful. What a glorious time when all my family will meet again. That great gate will open and Dad will be standing by His master. Those golden shoes upon His feet oh how sweet. That beautiful robe will shine so bright. Christ with that big book. How does it look?

All our names is written in blood red. Dad will be there inside the gate. He will know all the saints as they come marching in.

Oh, what a glorious time when all the bell begin to chime.

How I wish I could hear daddy sing. I never knew my daddy, but I know he looks like a king as he marched through glory land.

He will be singing Beulah Land, but he has riches untold now.

ROY MARTIN

## Something To Think About

### THE CASKET

Caskets come in two basic types: Protective and Non-Protective. Protective caskets, which are designed to resist the entrance of air, water and other grave site substances, are made of steel, copper or bronze. Non-Protective caskets, which are made of steel, hardwoods and cloth covered sofwoods, offer no resistance to the entrance of the elements.

The cost of the casket is determined by four things: construction materials, quality of workmanship, type and grade of interior materials, and features you may desire such as swivel handles or cathodic protection.

The selection of a casket is a matter of personal or family preference which can be arranged before actual need. Most funeral homes offer a wide range of caskets to satisfy varying tastes and budgets. It is important to remember that the casket is the last material gift the survivors can give the body which once was a beloved person. It can add greatly to the esthetics of the funeral service and to the repose of the body.
