September 11, 2001; a day to remember

Richard Anderkin Editor unt Vernor Sional

Today, (Wednesday), September 11, 2002, marked the one year anniversary of possibly the worst day in the history of the United States.

When you think about the innecent people who lost their lives it was a first the courage that so many people have shown after losing loved ones, it makes you have a better appreciation for the American way of life and what this country slands for.

Freedom is something that so many of us take for granted, but

this country stands for.

Freedom is something that so many of us take for granted, but something that I think most Americans know doesn't come without sacrifice, especially after the terrorist attacks gave us a reality check.

rifice, especially after the terrorist attacks gave us a reality check.

There are some advantages to living in a small rural community. Althought himk all normal red-blooded American's have mourned for those lost in their own way, because of our place of residence, we were not nearly as affected by the events as were so many other Americans. nearly as affected by the events as were so many other Americans. What happened on September 11th could happen again because we

are a free nation. I really don't be-lieve Americans are willing to give up any of our freedoms simply be-cause there are idibts out there who are willing to die for their twisted beliefs.

cause use an are willing to die tor use. beliefs.
I don't watch many of the shows commemorating 9-11 because quite frankly they depress me, but the neople who died that day deserve any artion can be seen as a nation can people who died that day according and all admiration we as a nation can

... ... so usestive any man all admiration we as a nation can bestow on their memory.

We live in a somewhat scary time and 1 think that we all should be thankful that we still live in a country where men and woman are willing to serve and die for their country.

try.

I also believe that our President and his administration know something about Iraq that the rest of us don't. We should support him, because I don't think he would be mak-

cause I don't think he would be making such a big deal out of the situation if he didn't think Suddam
Hussein is a real threat to the World.
My son Aaron was injured in
Friday night's football game
against Bunbar.

I simply want to say thank you to everyone, including family, who came to the hospital, called, sent cards and helped at the field. We also want to thank all of those who have asked about him since his injury.

want to thank all of those who have asked about him since his injury. I want to especially thank the Rockcastle County Ambulance Service, the staff at the Rockcastle Hos-nital and a great big thank you to Dr

Karen Saylor for her concern and quick reaction.

of us, but everyone's concern helped

I was at my brother Keeter's eith Adams') house at Redstar on (Keth Adams') house at Redsar on the Sunday evening before Labor Day when sister-in-law, Nancy ani-nounced that it was too hot to cook anything else so she was just going to fix soup beans and corn bread for supper if that was all right with exphody and everybody and everybody and everybody and the said that sounded just fine and Keeter even yelled back from the front yard for her to hurry up cause he was getting hungry.

And I was thinking to hayself,
And I was thinking to hayself,
And I was thinking to fayelf. (Keith Ada:

Lucks".

Lucks pinto beans out of a can ave probably, on several occasions, topped or at least postponed starvaton in some third world countries uring the course of mankind's reign are documented. I've even had th placed in front of me in a bowl at the table, taken a whiff, and immediately decided that it was time to get back on my diet and I've only been close

on my diet and I've only been close enough to starvation at time or too to actually ingest them without benefit of much chil prowder, onions etc. So. Nanco (real name Nancy but he lets Keeter call her by that ham so I dio too because she is my favorite sisten) elled back and saive ti would take about an hour for supper to be ready because she was just on be provided by the sisten of the company of the compan and most frequent things we do when we come home for the holidays is offer advice on how to live their lives to our kin folks in the mountains but

to our kin folks in the mountains but they never listen to a word—). The first advice I intended to give says that I knew for a fact that Keeter 1867 pt Ktd a big mess of half fruit, acces sat of his garden the night be, fore, and that if my preference was worth anything. If just as soon help string and break them up right then so we could have a decent supper.

But Nancy was emptying a pound they are the supper of the properties of the pro

had a big piece of fat back steaming in the kettle and, at that point, thought my sister-in-law had gone off the deep end of the dock and spent

the deep end of the dock and spent too much time on the bottom. In my experience it takes at least eight-hours to cook pinto beans into what we hillbillies call soup beans. To really, do it right, you sook they overnight in warm sally water, drain them a few times, and then put them

in the kettle with aforementioned fatback where they are allowed to simmer from the time you go to work until you get home. And the longer you work, the better your beans are apt to taste when you finally get home.

apt to taste when you finally get home.

Not only that, but a pinto bean cooked from the dry stage for just an hour and then rammed down the barel of a .50 calibre black powder musket charged with a hundred or as grains of black powder is more lethal and accurate at a hundred yards than any lead bullet ever minted. If you don't believe me, ask anybody who was ever in the Crivil War.

Anyway, Nanco finally told me to stand back and watch or get out of the way and it was pretty clear that she meant business. She boiled the beans for a few minutes, until the strips started fading, advising me to watch and learn, and then popped a pressure ido not pet kettle. I hadn't even recognized it as such but it was pressure looker.

even recognized it as such but it was a pressure cooker.

When the pressure cap, set at 10 pounds, started rattling she turned on the timer, put a big pone of cornbread in the oven and comenced slicing tomatoes and onions. She stopped the beans and turned off the stopped of the property of the propert

She stopped the beans and turned off the timer at 20 minutes, let them cool for 10 and then simmer with lid off for another 10. In the meantime the combread finished baking.

My Mom used to say that it was a waste of heat and sweat to cook soup beans in September. But my Mom never had Nancy's pressure cooker nor a clue about how good they taste when prepared by an expert. If you don't want to figunder, don't go to my sistem-in-law Nancy's house to eat. And if you live outside the mountains, please doggibe giving her any cooking advice. It scares sage to death that Nancy might take it.

Ike Adams-September 5th

For nearly a month I had looked forward to a couple of days in Letcher County to visit kin folks and take advantage of 'Jess & Cathy Campbells' invitation to come to the molasses stir-off over Labor Day Weekend. The plan was to leave Paint Lick right after work on Friday and come home on Monday morn-

g. But things don't always go as

But tining soon a aways go as a planned.

La Verne Ledford, wife of my neighbor and great friend, Dan who was the second real resident of Paint Lick 1 met upon moving here 20 years ago and who plowed my gaden with his tractor but wouldn't take any money for the effort because "the dirt was so poor it wouldn't spoor to rab grass" passed away late last

week and her funeral was last Satur-day.

I'm not big on funerals and don'u plan on having one myself but Mrs. Ledford was' a super-special, kind and gentle woman and not much, if and gentle woman and not much, if any, of the Eighty-one years she spent on this earth were wasted. And be-sides that she'd spent over sixty of those yéars married to Dan, which I considered more than reason enough to make paying last respects a high potentia.

to make paying.

I also figured that LaVerne's funeral would be more of a celebration of her life than a grieving affair eventhough almost everybody in the Old Manse Presbyterian Church (Oldest Protestant Church in Kentucky and though aimost everyoosy in the Use Manse Presbyerian Church (Oldest Protestant Church in Kentucky and built even before Kennucky became astate in 11 Me. Protestant Church at Kentucky and state in 11 Me. Protestant Church at State in 11 Me. Protestant Church astate in 11 Me. Protestant Church Rouis is Called Up Yonder. "How Great Thou Art" and "Where the Roses never Fade" without so much as glancing at a hymnal. Most of those of us weeping knew that the hymns were right on target and at least one of us knew that every word to every song accurately described Mrs. Ledford and her undying Fath. Let me simply say that if Laverne is not there when the roil is called, the rest of us won't show up either. So I didn't get started to Letcher County uill nearly dark on Saurday and when I made it to Ulvah, Kentucky where Line Fork Creek runs into the Kentucky River to sweeten the water they drink in Lexington and when I made it to Ulvah, Kentucky where Line Fork Creek runs into the Kentucky River to sweeten the water they drink in Lexington and when I made it to Ulvah, Kentucky where Line Fork Creek runs into the Kentucky River to sweeten the water they drink in Lexington and when I made it to Ulvah, Kentucky where Line Fork Creek runs into the Kentucky River to sweeten the water they drink in Lexington and more in the total and the control of th

my high school classmate, Randy Campbell, stood ten feet away munching on cane stalks and gouged each other with their hind legs and wed to each other that their o grand parents had to walk in circles to drag around a pole that powered the mill.

to diag another a power to the mill.

My Daddy owned one of hose old mules (Mert was her name) and we'd tie an' ear of corn onto the end of a broom handle, (fasten it to her shoulder harness, run it up through the top of her briddle so the corn was dangling about two feet in front of her nose and she'd chase it all day at a fast walk which was all the power you needed if she was hooked up to a gin pole and you wanted to make molasses.

Randy's mules didn't look or act a bit smarter but it would have taken them all week to gin out the cane that little Honda contraption did in just a

them all week to gin out the cane that little Honds contraption did in just a few hours.

I came home telling the story and a certain daughter who does not like to have her anne mentioned in my column wanted to know the names frandy's mules. I told her that I didn't get that well acquainted with home. Then she wanted to know if they were male or female.

I told her that it looked to me like the men were doing all the work at the stirred 150 of In figured the mules were of the female persuasion because they were just standing around and unless they'd made the soup beans that were simmering in a huge cause they were just standing around and unless they'd made the soup beans that were simmering in a huge cause of the female persuasion because they were just standing around and unless they'd made the soup beans that were simmering in a huge cause of the female persuasion because they were just standing around and unless they'd mead the south of a contribution to the process as she would have. She didn't even ask if I'd brought home any molasses.

Maybe next year I can bring the

Hiatt's 5 & 10 proudly invites you... to our Fenton Family Signing Event!

Tom Fenton

Saturday, October 12 2:30 - 5:30 p.m.

Tom Fenton

derafted American Glass Artistry

E N T O N Come meet Tom Fenton...

As yier President of The Fenton Art Glass Company,
Tem plays a key leadership role in the Fenton factory's
quest for Continuous Improvement of Quality. "Our goal
is to constantly improve the product we make for Fenton's followers
throughout the world. Crucial to the achievement of high quality, at a
reasonable cost, is the Fenton-craftsman's skills for quickly executing
new designs."

Tom's early education included Ohio Wesleyan University, Ohio University Graduate School and the US Army Reserve.

On Fenton craftsmanship Tom says, "We offer our customers unique, often complex designs and colors.

After our best efforts to produce

these items, we certainly enjoy the kind words and recognition offered by our collectors and dealers." from and this wife, Sharon, enjoy traveling, aerobics and mountain hiking plus spending time with their three fun-loving adult children and two wild grandchildren.

For the best selection make your Fenton purchases prior to October 12th and Hiatt's will hold your pieces and have them signed on October 12th, for you to pick up the following week.

Hiatt's 5 & 10 is located on Main Street in Mt. Vernon
