HITACHI

Inspire the Next

Throughout its' history, Hitachi Automotive Systems Americas, Inc. has been synonymous with safety, quality, growth, and continuous improvement. Adhering to these core values has enabled us to succeed as a Tier 1 supplier of world-class products to the global automotive market. With five US locations and over 2,100 hard-working employees, we are dedicated to ensuring the expectations of our first-rate automotive customers are consistently exceeded.

Our recent expansion has afforded us a unique opportunity for strategic, dynamic, and forward-thinking 2nd-Shift Maintenance Technicians for our Berea, KY location. You offer us your determination and work-ethic; we offer you very competitive pay and top-notch health benefits.

Chief Duties and/or Responsibilities:

Provide emergency/unscheduled repairs of production equipment during production and performs scheduled maintenance repairs of production equipment during machine service.

Support assembly line movement/machine enhancements for new program launches

Perform mechanic skills including but not limited to, mechanical, electrical, pneumatic and hydraulic troubleshooting and repair of production machines.

Check, repair and maintain equipment observing for and correcting defects.

Replace defective parts making necessary adjustments to ensure proper machine functioning.

Modify existing machine tools to allow for the performance of specified operations.

Operate a variety of machine tools to fabricate replacement parts, using drawings or parts to obtain dimensional requirements.

Check and audit problem parts for dimensional accuracy using various types of fixed and hand-held measuring devices. Identify and eliminate problems in department, which effect productivity, quality or safety.

Read and interpret equipment manuals and work orders to perform required maintenance and service.

Comply with OSHA Safety and Health regulations.

Qualified Applicants will possess the following:

High School Diploma or equivalent required.

Post-High School technical training; exposure to industrial manufacturing equipment preferred.

Ability to troubleshoot, identify, and correct sensors

Experience with data collection for process verification preferred

2 or more years of related experience in maintenance of production machines.

Special skills required: electronic/electrical, PLC and computers, safety, troubleshooting, test equipment, schematics, mechanical, metric system, blueprint reading, measuring techniques, hydraulics and pneumatics.

Since we only hire the best and want to maintain a safe and pleasant work environment for all, final candidates are subject to drug screen and background checks. Hitachi is an Equal Opportunity Employer (M/F/D/V).
